

Park and Rec Meeting Minutes  
8/10/20

Members present: Colby, Karl, Diana

Also present: Dick Lovelady and John Calhoon

Called to order at 5:32pm

Minutes were approved with amended comment.

Motion made by Karl and seconded by Diana for approval.

Dick wanted to know where we were on the signs for the coves at the lake. We need to mark places.

Karl with order posts from Compton's.

Rock is needed to fill in gulleys on both sides of the lake. Dick will talk to John about it.

New shelter house by the swimming pool is still not finished. The fascia needs to be completed. John will check into this.

Pool revenue went from good to not good. John told Tara, "No overtime". Revenue vs expenses are BAD. The pool will remain open on weekends through Labor Day. A cover where the tanks and other pool equipment, needs to be built to protect them from weather,

Camping revenue is very good.

John talked about the County Spark Program to help with Covid protection. All of the county schools received temperature taking devices to monitor anyone who goes through the front door and to the lunch room. Great news.

John had asked for \$35,000 of that money for bathrooms with handwashing stations included for the Little Lake and for new playground. He was opposed by Jeremy Forkenbrock.

Leatherman's camp site is looking very nice after adding the rock.

The light above Kari Meyer has not been dealt with yet. John wants to undo the light and see how it goes.

Diana brought up that a camper had asked about camping all year around. The answer was NO again.

The ballfields have not had much action this season. This is partially due to the CoVid by they are kept mowed and dragged.

Karl mentioned he had people complain to him from the north of the west side of the lake of a very bad smell of sewage. John will talk again to Campers in spot 23. There are trees planted by spot 23. John is handling it.

Karl made a motion to adjourn. Colby seconded it at 6:20pm.
