

Park and Rec Minutes
May 8, 2018

Attendance: Diana, Karl, Colby

Others: Jeremy, Kim

Absent: Andrew

Colby opened the meeting at 5:45pm.

Public Comment:

Jeremy Becker (#40) came to the meeting to ask for a dock. He did not have any dimensions or other info to offer the Committee. He was instructed on the requirements of the application for getting a dock. He will bring that to the next meeting. Diana made a motion to hold the spot he asked for, seconded by Karl. Motion passed. He also asked to speed bumps to be placed by his camper because of the little children in that area. He states a of people drive very fast through there. Kim will take this into consideration.

Kim brought up that there's a big tent in the middle of campers on the North end, around #41 or #43. Should it be taken down when not in use?

Pool: waiting on doorknobs otherwise everything is going ok.

Jeremy: Can there be standardized size for camping spots? He also mentioned there are now 8 camping spots "on the hill".

It was questioned if camping patrons could cut dead trees and use them for firewood. It was decided that it would be a City liability if someone got hurt plus the possibility of other trees getting cut down that should not have been cut. A motion was made by Karl and seconded by Colby that the City would cut the trees down and the patrons would be given so many days to cut the tree up for campfire wood. The patron would be responsible for cleaning way the brush. The motioned carried.

There will be a pool check done on Friday the 11th at 10:00 to make sure the pool is completed and ready to be used.

The Railroad Park looks very nice.

It was brought up about the docks needing repair. Karl made a motion that the City employees check the docks to see which ones were not being kept up. Diana seconded the motion. Motion carried.

The T post by the old "pallet" dock needs to be taken out.

No new news on the Christian Church Camp.

Karl made a motion to adjourn. Diana seconded it. Motion carried.
