

The Horton Industrial Development Corporation (HIDC) is committed to helping existing businesses grow, as well as developing new businesses in the Horton community. We are committed to helping new businesses transition in and grow by helping them to locate lots for development, facilitating communication in acquiring existing commercial buildings for sale or for rent, guiding businesses to various micro-lending programs, as well as offering welcome packages containing more information on the community. Give Tim Lentz a call at 785- 548- 5028 to see what HIDC has to offer.
