

Park and Rec Minutes

June 12th, 2018 Members present: Colby, Diana Karl, Jeremy

Others present: Kim Knudson, Jim Hoffman, Nathan Coffman

Colby brought meeting to order at 5:35pm.

Jeremy talked about the need for signs for swimming areas at all of the entrances to the lake. They are to have signage to go to the Caretaker Office for the rules... including where a person can and cannot swim. He also mentioned we need to pick out an area for the new playground equipment that is to arrive in October. The area needs to be 44' x 54' in size. Suggestion of East of Basketball court/North of swimming pool for possible location of playground.. Jeremy talked about lighting the pool. We do have the old City poles and could use flood lights temporarily for the Pool Party that has reserved the pool in the evening.

Caretaker Jim Hoffman brought up about campers in 14 day camping spots would benefit from a water source located in the 14 day spots with a horsehead on the faucet. He states he still needs help.

Colby brought up the dock checks by the City employees to Kim that were in last month's Minutes. Nothing had been done at this time but she will look into it. Suggestions that yearly notices be sent to the dock owners reminding them they have that responsibility or the dock may be removed.

Diana brought up about the buoy placement AGAIN. The No Wake area is being ignored by MANY... including speed boats, pontoons and jet skis. She also brought up about people swimming in the middle of the lake straight out from the Caretaker Office and out from Goben's camp site. Also mentioned was swimmers in other No Swimming areas especially young kids with no life jackets and no adult supervision. All campers need updated Manuals. Perhaps we need a list that can be checked off as campers are given a manual so no one can say they didn't receive one. These have the camping, boating and swimming rules.

Jeremy mentioned there will be new speed limit signs. They will be 20 miles an hour from Hwy 20/59 North to Paden's corner (120th Road). North of there on the rock road, it will be 10 miles per hour.

There are NO Timeshares. When a camper doesn't want their camp site any longer, it will go back in the hat. There are no refunds.

Karl made a motion to adjourn. Diana seconded the motion. Motion passed.
